Zhiron Wu

(857) 300-3514 | Cambridge, MA | : zwuy@mit.edu | in: linkedin.com/in/zhironwu

Education

Massachusetts Institute of Technology Sep. 2022 - May 2026

Candidate for Bachelor of Science in Computer Science and Engineering + Japanese Minor *GPA: 4.7/5.0*

- Candidate of Master of Engineering (MEng) – Fall 2026 Start
- **Coursework:** Computer Graphics, Computer Systems Engineering, Intro to ML, Design/Analysis of Algorithms, Computation Structures, Software Construction, Circuits and Electronics

Skills

- **Programming Languages:** Python, C/C++, TypeScript, JavaScript, HTML/CSS, Rust
- **Frameworks & Libraries:** React, PyTorch, NumPy
- **Development Tools:** Git, GitHub Actions, Jupyter
- **Other:** Linux, Code Review, Debugging, Data Structures & Algorithms
- **Languages:** Spanish - Native, English - Fluent, Japanese - Intermediate

Experience

Fundamentals of Programming MIT EECS Department

Lab Assistant *Sept. 2023 - Present*

- Lead students to a better understanding of foundational python and programming concepts, including abstract problems, algorithmic techniques, data types, and recursion.
- Review student code, offering feedback on clarity, style, and efficiency.

WEBSTAFF Tokyo, Japan

Internship *Jun. 2025 - Aug. 2025*

- Developed and enhanced software tools for internal and external use, contributing to the successful deployment of multiple projects on production websites.
- Collaborated in the design and implementation of an internal tool that automated the code review and approval process, streamlining workflows and improving team efficiency.

Computing Research Center at National Polytechnic Institute Mexico City, Mexico

Research Internship *Jun. 2024 - Aug. 2024*

- Evaluate the performance of a variety of post-quantum cryptography implementations on a resource-constrained ARM device (STM32F4-Discovery). Supervised under Dr. Gina Gallegos-García

Introduction to Python MIT EECS Department

Lab Assistant *Feb. 2023 - May 2023*

- Introduced students to introductory Python and programming concepts and helped them with their assignments, including debugging, refactoring, and testing.

Low-Level Programming in C and Assembly MIT EECS Department

Lab Assistant *Feb. 2023 - May 2023*

- Assisted in the teaching process for a course on low-level programming in C and Assembly, focusing on memory and associated topics including pointers, and how different data structures are stored in memory, the stack, and the heap.

Activities

Ecuadorian Informatics Olympiad Organization - OIEC Ecuador

General Volunteer *2021 - 2023*

- Designed problems as well as created test cases for the national informatics olympiad.
- Supervised participants in national and international informatics olympiads.

Ecuadorian Mathematics Olympiad Organization - OMEC Ecuador

General Volunteer *2021 - 2023*

- Supervised and graded participants in national and international olympiads.
- Play-tested and checked national contests for errors, level-appropriateness, and more.

European Girls' Mathematical Olympiad - EGMO Portorož, Slovenia

Team Leader - Ecuador *Apr. 2023*

- Acted as an ambassador for Ecuador in international settings, building rapport and facilitating cooperation.
